Nosy Be and Beyond The Dream Experience...

- **Climate, Atmosphere, Local Culture**

Nestled in the northwest of Madagascar, Nosy Be captivates with its gentle tropical climate year-round, its enchanting sunsets, and its warm atmosphere infused with Malagasy smiles. Between local traditions, the fragrance of ylang-ylang, and the rhythms of salegy, the island offers an authentic cultural immersion in a postcard-perfect setting. Nosy Be embodies the tropical dream in its purest form.

Nosy Be

A top destination in Madagascar

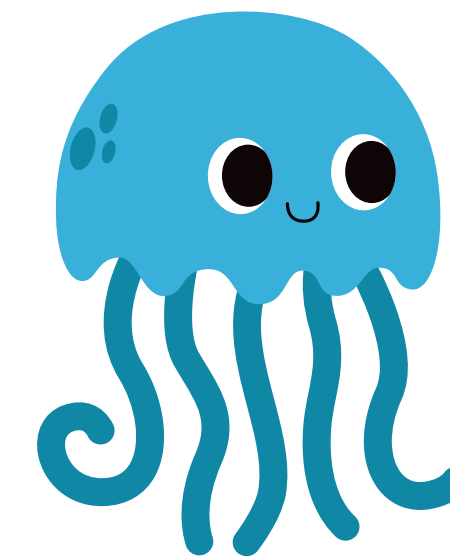

In Nosy Be, time seems to slow down to make room for the essentials: the song of lemurs at dawn, the thrill of a boat cutting through crystal-clear waters, and the scent of sun-warmed sand. Here, every moment is a caress, every landscape a living painting, every encounter a story waiting to be told.

It's not just an island, it's a feeling: walking barefoot on forgotten beaches, tasting hand-picked fruits, letting yourself be carried by the silence of the ocean depths. Nosy Be is not a place you simply visit, it's a sensation... one that stays with you long after you return.

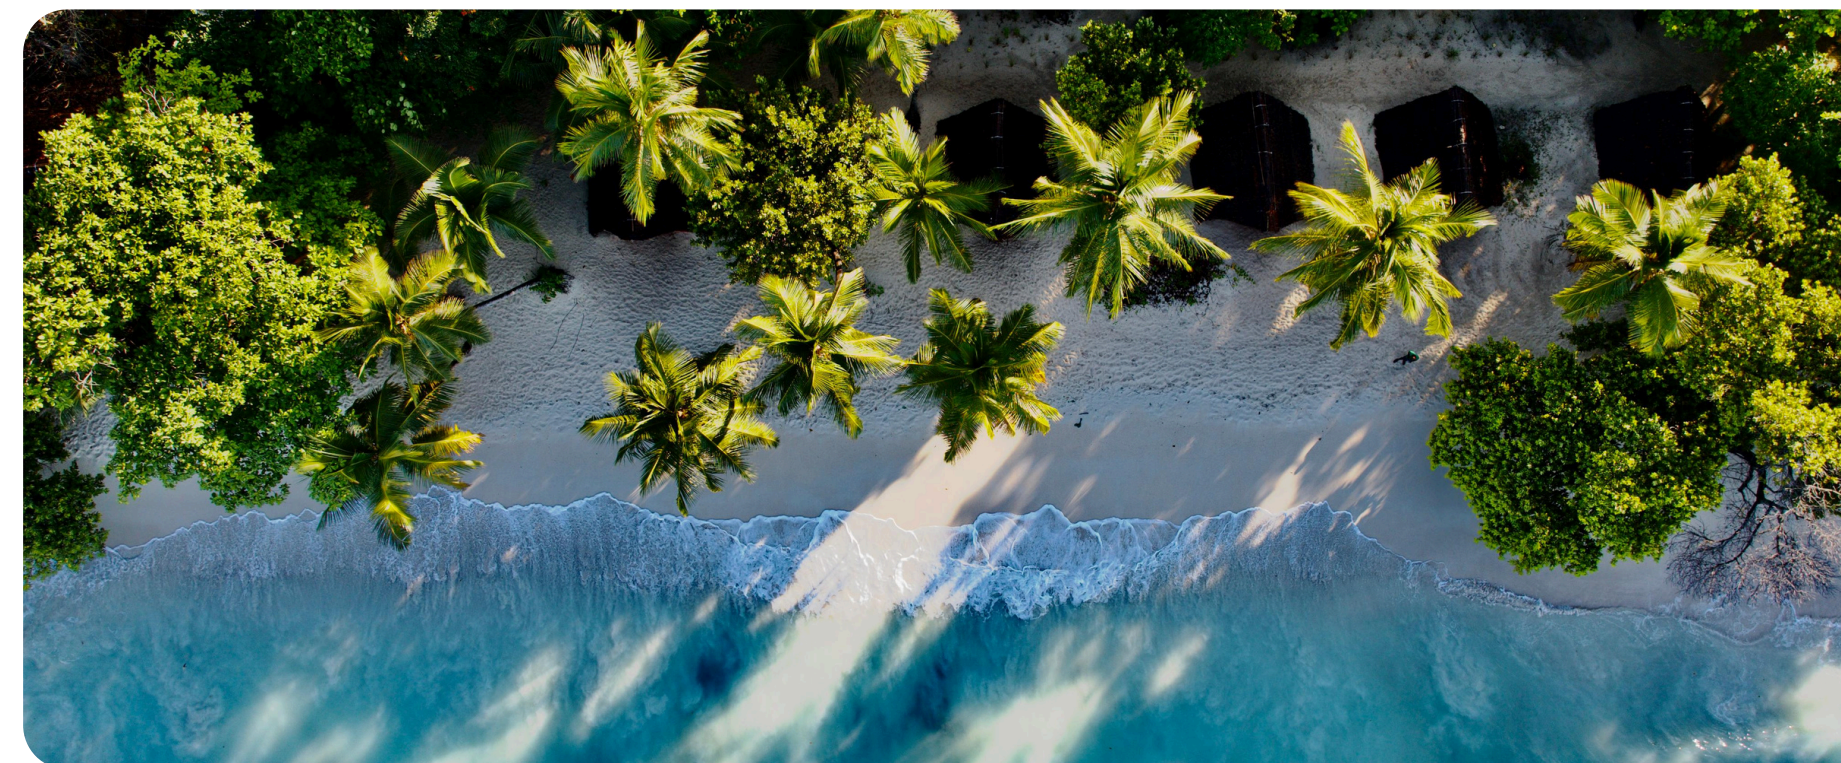

The surrounding islands **Bucket-List Experiences**

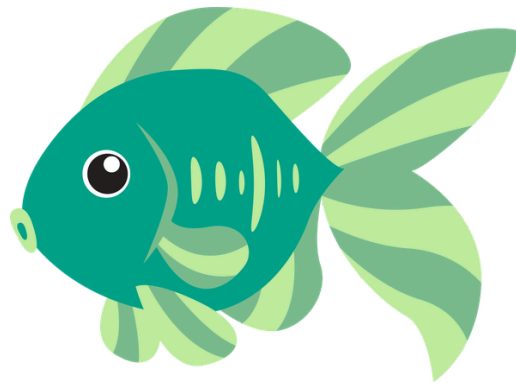

- Sailing around Nosy Be means discovering an archipelago of wonders, where each island tells its own story. Nosy Tanikely and Nosy Sakatia offer crystal-clear lagoons perfect for snorkeling, while Nosy Iranja enchants with its white sandy beaches and turquoise waters.
- With Safari Baleine, adventure takes on a whole new dimension: a retreat far from it all on Nosy Mitsio, encounters with humpback whales and whale sharks in their natural habitat. Every outing at sea becomes a sensory experience, blending marine thrills with suspended moments of wonder.

Nosy Tanikely **Exploring the Giant Aquarium**

A true open-air aquarium. With just a mask and snorkel, you'll easily encounter turtles, rays, groupers, triggerfish, and a dazzling variety of tropical fish.

On the island, our guide will also lead you to discover the richness of its terrestrial biodiversity: lizards, lemurs, fruit bats... And from the lighthouse, a magnificent panoramic view of Nosy Be's bay awaits you

Nosy Iranja

Meeting the turtles, the white sand, and the turquoise waters

Considered one of the most beautiful islands in the region, you will be charmed by its turquoise waters and white sandy beaches.

Popular with groups, couples, families, and solo travelers alike, Nosy Iranja offers the chance to go scuba diving or simply swim with a mask and snorkel. A walk along the sandbank is **a must** — at low tide it connects the two islands of Iranja. Local villagers sell handicrafts such as tablecloths, pareos, paintings, and various souvenirs. From the lighthouse, perched on a hill overlooking the sandbank and its surroundings, you can enjoy a stunning panoramic view.

Safari Baleine

The Giant Turtles

Nosy Sakatia

In Nosy Sakatia, the silence of the sea gives way to magic: swimming alongside giant green turtles in their natural sanctuary. Protected by a peaceful seagrass meadow at the foot of the sacred forest, they move slowly, in complete serenity.

With mask and snorkel, you'll glide through clear waters for an unforgettable encounter. Then, in the shade of palm trees, a lunch of local flavors awaits you — feet in the sand, eyes on the horizon.

Whale Shark, Dolphins, and Whales

Marine Wildlife Watching

Book

[SAFARIBALEINE-IG.COM](https://www.safaribaleine-ig.com)

Between August and November, the warm waters of Nosy Be welcome humpback whales migrating from Antarctica to breed. Their spectacular displays — leaps, songs, and courtship rituals — create a moving and majestic ballet. Safari Baleine takes you to the heart of this natural spectacle, where you may also witness the tender interactions between mothers and their calves.

The whale shark, the gentle giant of the oceans, measuring between 3 and 9 meters long. Safari Baleine offers an unforgettable experience in the water, accessible to everyone, to swim safely alongside it. Committed to its protection, the team collaborates with the Madagascar Whale Shark Project to collect data and raise awareness about preserving this vulnerable species.

Humpback dolphins, bottlenose dolphins, and spinner dolphins can be seen year-round around Nosy Be, moving in groups offshore or close to the coast. The spinner dolphins, playful and energetic, delight with spectacular leaps and often approach boats. Bottlenose dolphins, naturally curious, allow for extended swims, while the more discreet humpback dolphins become playful when accompanied by their young.

Megafauna Safari

The Megafauna Safari is a 4-day expedition into the deep waters of Nosy Be, combining marine exploration with stopovers on legendary islands such as Nosy Tanikely, Iranja, Sakatia, and the Bay of the Russians.

Between encounters with ocean giants (whales, dolphins, whale sharks) and moments of quiet contemplation, this journey offers a rare immersion into the biodiversity of the Indian Ocean.

A Unique Expedition

Nosy Mitsio

A Getaway Far from Everything

The Call of the Deep

This exclusive Safari Baleine experience is an enchanted escape for ocean lovers and seekers of endless horizons. Every moment brings you closer to nature, in a wild and unspoiled setting.

Secret Archipelago

The excursion takes you to discover the islands of the archipelago, with walks on foot, boat trips, and dives into natural aquariums. The pace is gentle, guided by the tides and encounters with marine life.

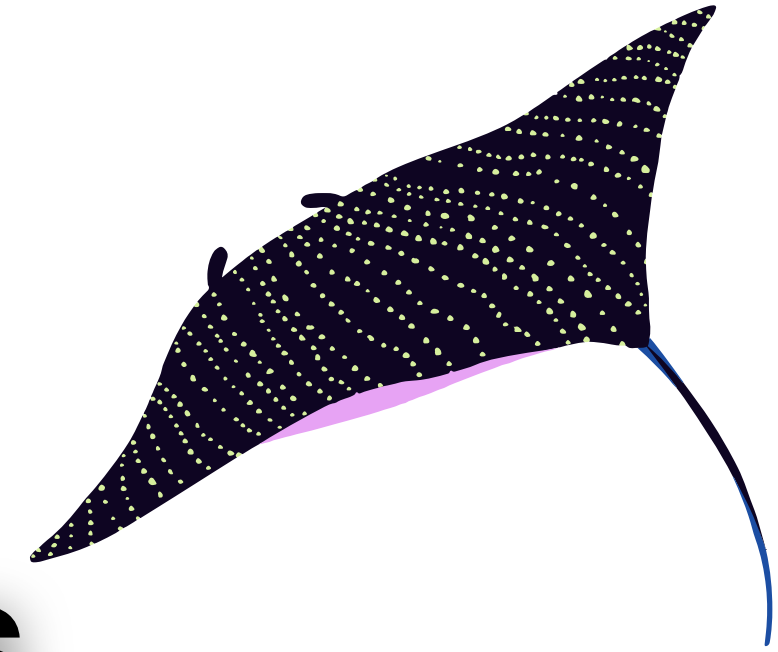

Serenity, Barefoot in the Sand

Stay in an intimate beachfront hotel on one of Nosy Mitsio's most stunning shores. With full board, an open bar, and fresh local cuisine, every detail is crafted so you can simply relax — breathe, savor, and take in the view.

Practical Tips **For Travelers**

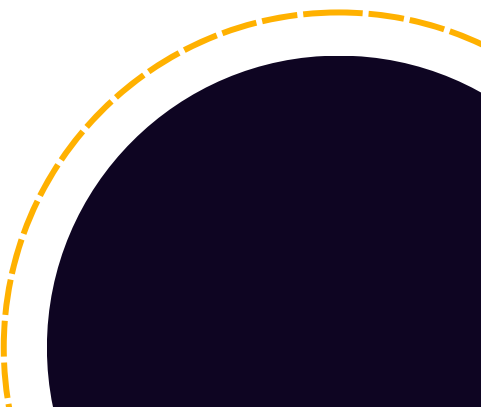

“From April to December, Nosy Be reveals its best face: warm sunshine, calm seas, and perfect conditions for marine adventures. Getting there is simple, with direct flights from Antananarivo and seasonal international routes that bring you straight to paradise.

Pack smart for your adventure: swimsuit, sunglasses, sunscreen, light shoes — and don’t forget a strong mosquito repellent. With a small first-aid kit, care for the environment, and a true sense of discovery, you’ll have everything you need for a serene and unforgettable journey.

Our Exclusive Offers

We invite you to experience the ocean in intimacy, with private excursions crafted to your rhythm. As a couple, with family, or among friends, you set sail with our devoted team for a journey apart, far from the ordinary.

Since 2004, our home has been Nosy Komba, where we pioneered the observation of marine megafauna in 2006. Over the years, our team has grown, yet our devotion to the sea and its creatures remains unchanged.

Each safari you share with us also nurtures the island itself, supporting the AKIBA association and its mission for sustainable development on Nosy Komba.
